The Loss of Heart Consciousness Is Destroying the World

We have forgotten that the heart connects us to a larger dimension of reality that nurtures the birth of a just and feeling world. Western culture has valued the rational mind at the expense of the heart. This has resulted in pervasive depression, violence, fanaticism, fundamentalism, and addiction to power, death, and drugs that promise to transform our experience of a world without heart and soul. We are destroying ourselves and the planet.

Merchants of Light: The Consciousness That Is Changing the World returns to us our shaman-mystic-scientist heritage that carries the blueprint for heart consciousness. This blueprint is revealed in the heart wisdom of the mystic and in the new science of quantum physics. Its message is clear: we are immortal, divine, and creative. The return of this Consciousness is changing the world.

“Merchants of Light is a rich and valuable immersion in sacred consciousness as it stretches back over millennia. Here are the spiritual secrets that the priests of the patriarchy and their drive for power have tried to repress, but which we urgently need at this present moment of evolutionary crisis,” states Llewellyn Vaughan-Lee, Ph.D. Sufi teacher and author, *Spiritual Ecology: The Cry of the Earth*.

Through 5 distinct parts, *Merchants of Light* returns to us these spiritual secrets on which our survival depends. First, it reveals the repressed unity of the mystical and scientific consciousness of our ancestors. Second, it unveils our soul stories that carry the plan and design for our evolution and this sacred knowledge that we are immortal, divine, and creative. Third, it shows how this ancient heart wisdom is now being validated by the new science. Readers have the opportunity to dig deeper in understanding with a foreword by Anne Baring, endnotes, bibliography, index, and appendices.

The consistent repression of this ancient wisdom is the root cause of our current planetary crisis. And it can only be healed through the consciousness of the heart that births a feeling and just world.
